AA: Students should be aware that AP test credit may correspond to an equivalent college course. A student who receives								
AP credit and then takes the equivalent course will have the unit credit for such duplication deducted prior to being awarded the								
A.A. or A.S. degree. Advanced Placement exam results and courses for which credit is granted will be posted on a student's transcript, with units assigned and no grade.								
CSU GE: The Advanced Placement examinations may be incorporated into the certification of CSU General Education-Breath requirements by any								
certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breath area								
if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those								
specified toward completion of General Education-Breath requirements.								
IGETC: AP exams must be used in an area indicated regardless of where the certifying California Community College's discipline is located.
